## Juneau Animal Rescue COVID-19 Information & Doggy Daycare Waiver

Due to the COVID-19 virus, Juneau Animal Rescue would like for all Doggy Daycare parents to understand the possible risks to their pets in attending daycare activities.

First and foremost, the risk of animals spreading COVID-19 is incredibly low.\* Although there has been information about pets being infected with COVID-19, the Centers for Disease Control and Prevention (CDC) stresses that the primary risk of transmission to humans is other humans. The CDC states that currently there is no evidence that animals play a significant role in spreading the virus that causes COVID-19. The American Veterinary Medical Association also notes that there have been fewer than 25 reports from around the world of pets (dogs and cats) being infected with COVID-19; however, none of these reports suggest that pets are a source of infection for people.<sup>1</sup>

CDC encourages pet owners to treat pets as you would other human family members to protect them from possible infection. This means limiting contact between your pets and people outside your household as much as possible and avoiding places where large numbers of people gather. If you are sick with COVID-19, either suspected or confirmed by a test, you should restrict contact with your pets and other animals, just like you would with people. Until we know more about this virus, people sick with COVID-19 should avoid contact with pets and other animals.

Due to the COVID-19 outbreak Juneau Animal Rescue requires that all Doggy Daycare clients understand the possible risks to their pets and ask you to please abide by the following rules.

**I hereby acknowledge that I understand the risks of bringing my animal(s) to Doggy Daycare and promise to abide by the rules and assume the liabilities listed below:**

- I understand that Doggy Daycare playgroups and walks offer face to face contact for dogs and that there is a risk inherent in these activities.
- I understand that all JAR staff will wear face masks while working with my animal(s).
- I will abide by the 6-foot social distancing practices implemented by JAR when dropping off and picking up my dog.
- I will wear a face mask while coming into contact with JAR staff.
- If I or anyone else in my close social group experiences the symptoms of COVID-19 (cough, shortness of breath, fever, chills, muscle pain, sore throat, new loss of taste or smell) I will not bring my animal to Doggy Daycare until symptoms are gone for at least 72 hours without the use of fever reducers or symptom altering medicines.
- I assume all risks and costs associated with COVID-19 infection and will not hold JAR liable legally or financially for any possible transmission and/or infection.
